Example

Get your own Java Server

```java
public class Main {
  public static void main(String[] args) {
    System.out.println("Hello World");
  }
}
```

Try it Yourself »

Click on the "Run example" button to see how it works.

We recommend reading this tutorial, in the sequence listed in the left menu.

Java is an object oriented language and some concepts may be new. Take breaks when needed, and go over the examples as many times as needed.

Java Exercises

Many chapters in this tutorial end with an exercise where you can check your level of knowledge.
